Quebec 60-70

Port Hope 600

Kirland 700 vehicle

Hawksbury ...

PLT is good working with all grounds. Tactical group. Staged in westblock.

At 13:30 demo coming up to the Hill 5000 people.

Privileged - Police

10-24 call came in (gun call)

By-law, everything is working well...

Traffic safety? SJAM is getting stacked with the big trucks. We don't have a ton of trucks there yet. Very light right now, 10:30-11:00 at the block.

What's the planning for tomorrow and the next day.

We have some intel that all the hotels are booked for Friday/Saturday, no hotels.

Mayor is already texting about car parked at cenotaph. Do not block an emergency route. Do not desecrate the Cenotaph. Tow Truck in, towed out.

Camping stuff, food truck, propane tanks? No move it.

They will be staying into Monday.

We will get into injunctions. We need to be tight with PPS etc.

No Intel for a big demonstration... so our concern is really now about tents and this become a tent city.

They have the three lanes, but we have our emergency access route. Three lanes, walking access between the trucks, is that unimpeded.

If they haven't set stuff up, we should have ESU soft hats smiling, getting rid of tents etc. We will be in a much better place to move them on.

Chief's point, someone showed up with a Camper and he was gone quick. Cenotaph. Today is all about demonstrating, tomorrow we will have a better feel of the land. If we say you can't have Wellington, we will get into a battle. Sunday maybe.

Parliamentary Privilege access. No setups for fire, BBQ, etc.
